

## Historic Drought in West

Feb. 1, 2014

LOS ANGELES — The punishing drought that has swept California is now threatening the state's drinking water supply...

- California is coming off its driest year since record-keeping began in the 1800s

- Never in the State Water Project's 54-year history has there been zero water allocation. "Simply put, there's not enough water in the system right now for customers to expect any water this season from the project."
